## Company Profile

# Mooton Kids Rides&Games

## Leader in the Amusement Industry

◆ Located in the center of Dubai, Business Bay, Mooton focuses on water park equipment production with 20 years of experience. It is a large-scale supplier and service provider integrating planning, research and development. The company has a strong engineering team including professional planning designers, quality inspection engineers, structural engineers, plumbing engineers, electrical engineers, as well as experienced construction personnel, after-sales service team, and professional water quality treatment personnel.

◆ Adhering to market orientation and taking meeting customer needs as its responsibility, Mooton focuses on building high-end water parks and cooperates with hot spring hotels, real estate, villa supporting facilities, and resort areas to provide one-stop services such as creative planning, site design, product customization, transportation, and installation.

◆ Main production and supply include: water slides, children's water play equipment, **artificial wave equipment, surfboard surfing equipment**, fountain water landscape equipment, swimming pool water treatment equipment and temperature control equipment, environmental art products, and other water park related equipment.

# Factory Qualification

## Three Major Advantages of Manufacturing Processes:

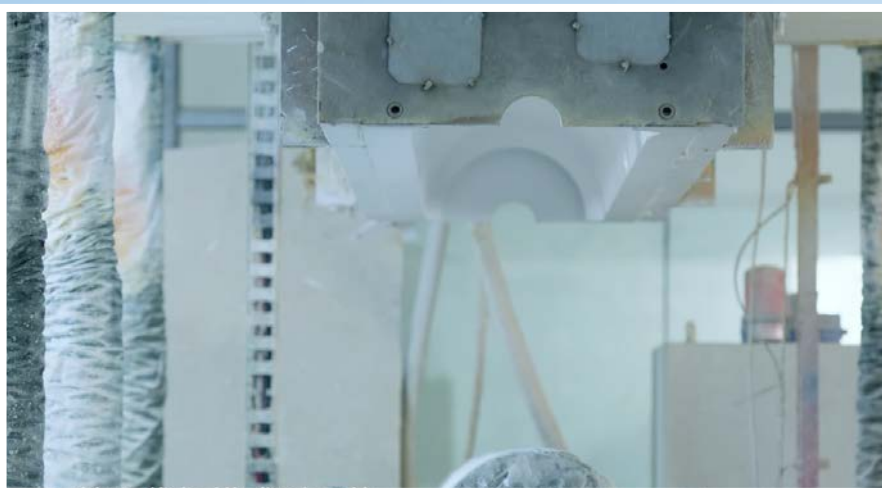

### Five-axis Machining Process:

1. Better surface smoothness
2. Smaller gap between mold seams

### Composite material molding process

1. Good mechanical properties steel.
2. Lighter products
3. Long shelf life

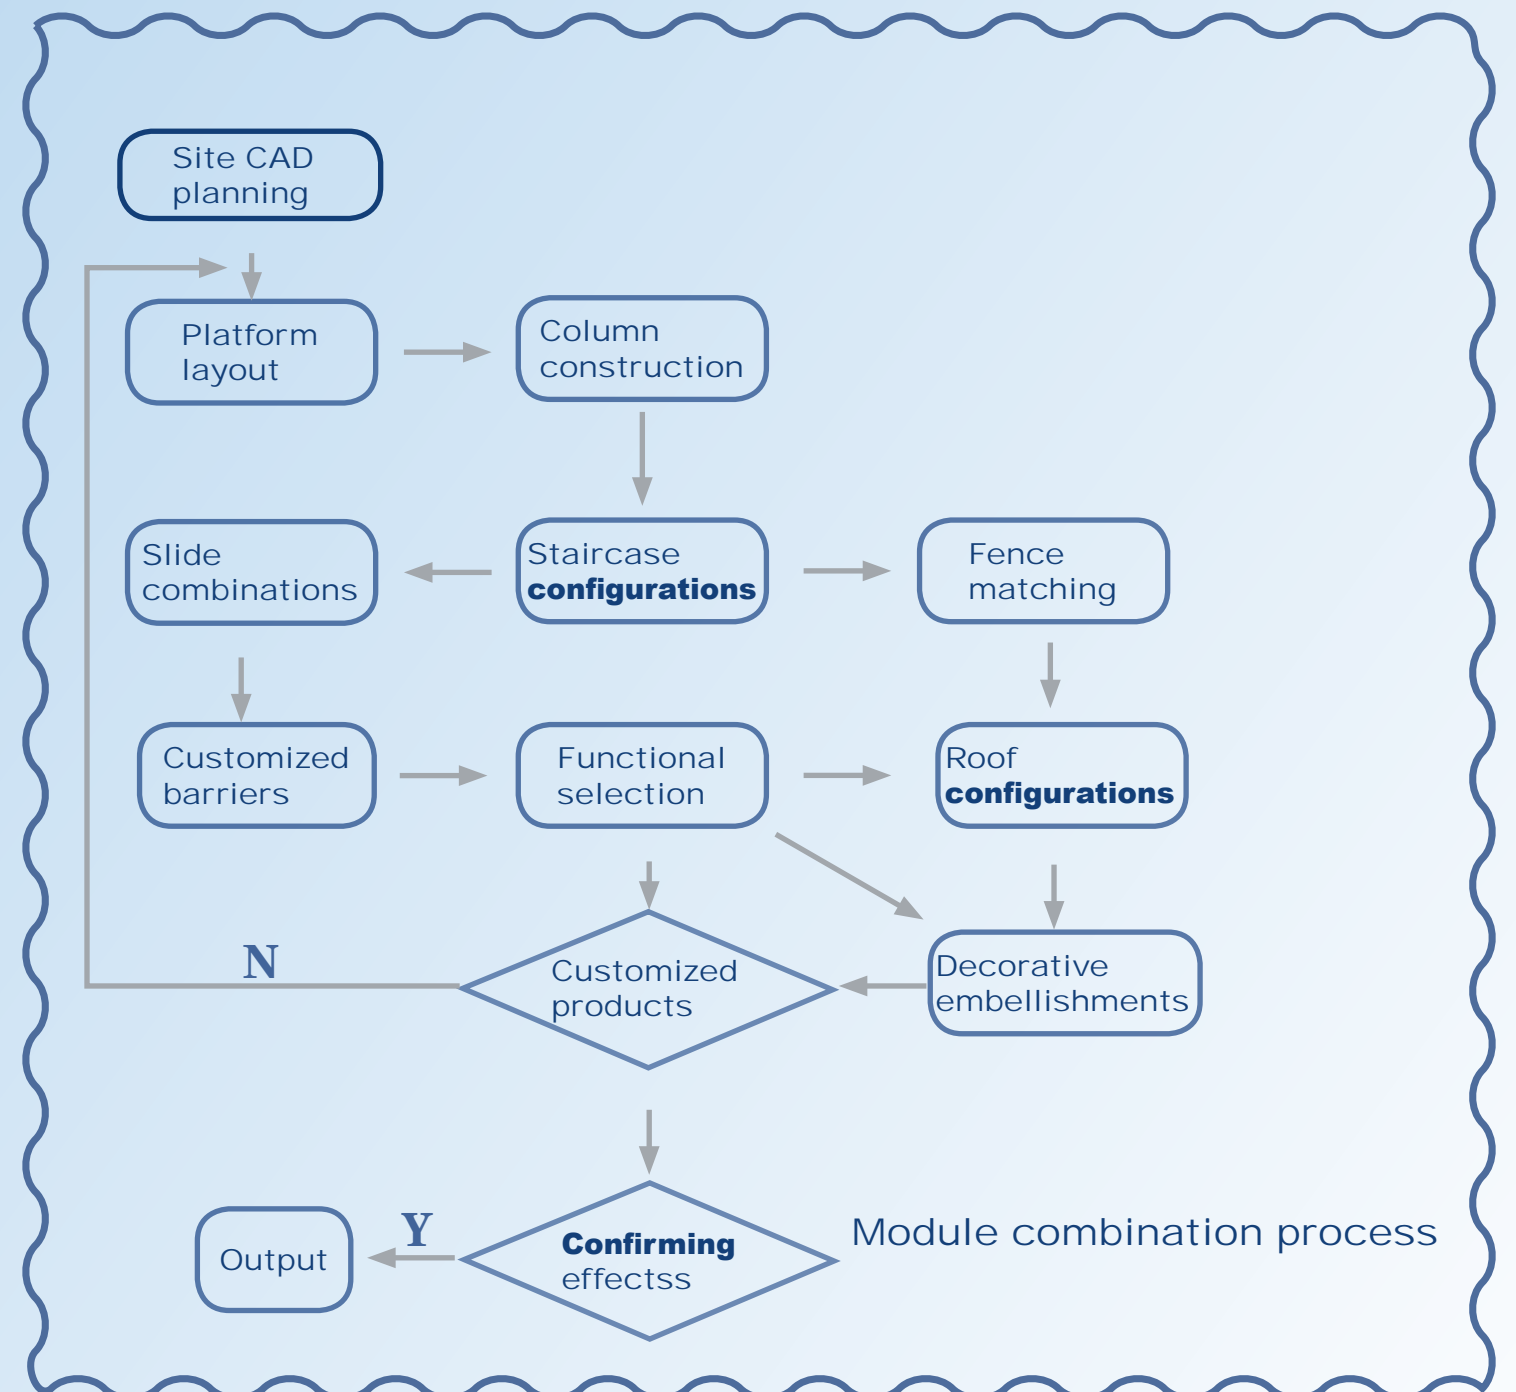

### RTM Double-sided Polishing and Vacuum Extraction Process

1. Surface does not bubble or peel
2. Anti-aging properties

## Advantages of Modular Design

Flexibly matching equipments according to site aesthetics.

Through analysis and research of product systems, segregate other units with similar or identical functions, unify, merge, and simplify them using standardization principles. Independently exist in the form of universal units (modules), and then use different combinations to plan and combine modules into a variety of new products. It's a process of decomposition and combination.

## Successful Cases

# Bertam Resort Water Park

- ◆ Location: Penang, Malaysia
- ◆ Area: 17,000spm
- ◆ Completion time: 2022

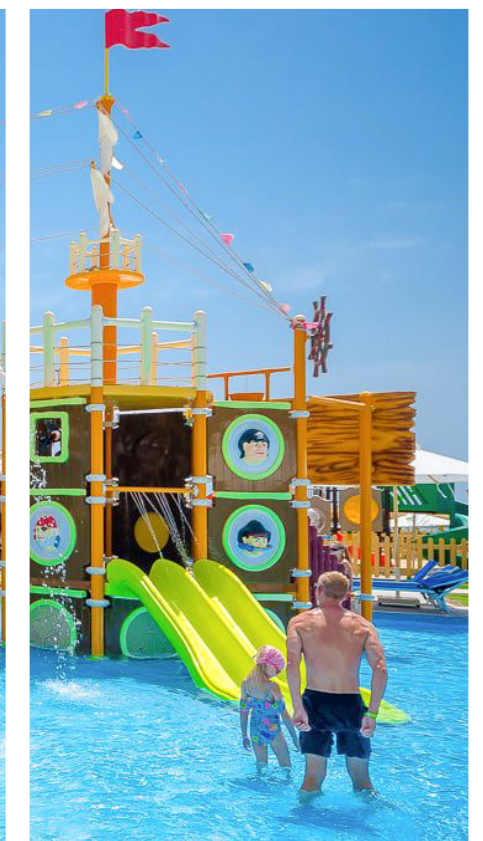

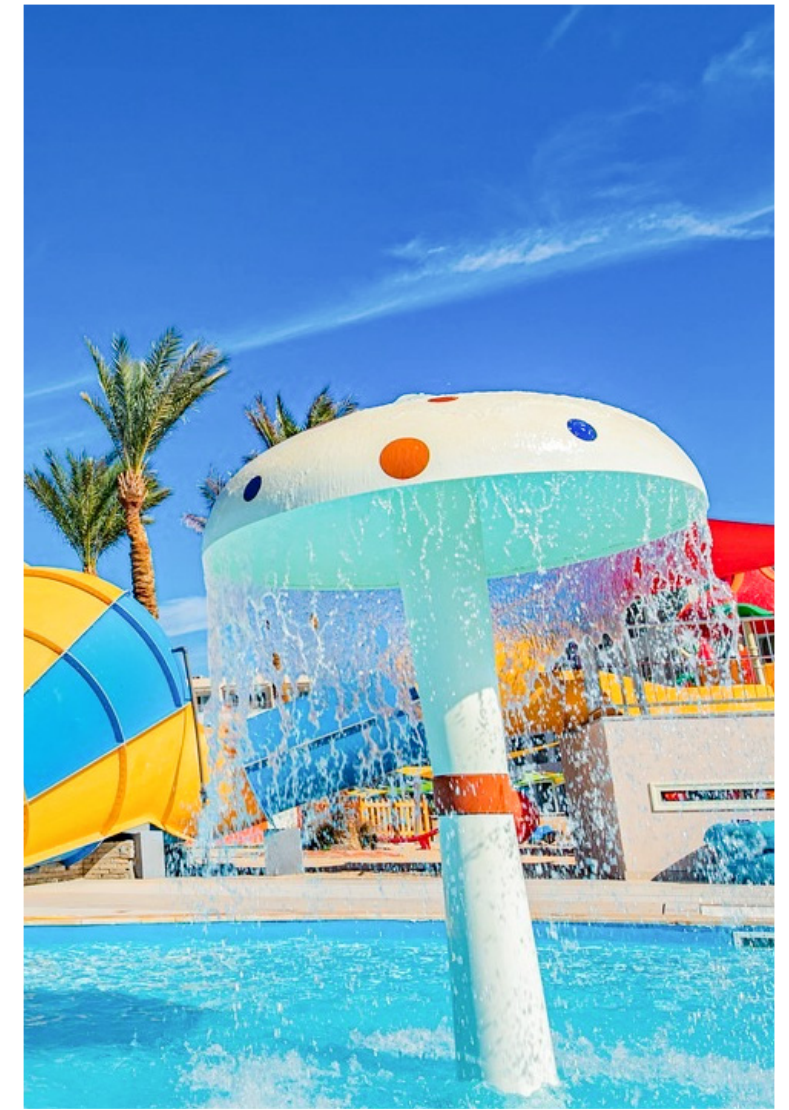

Penang Water Project in Malaysia, designed to incorporate Muslim religious culture; Utilizing the mysterious colors of geometric changes, highlighting the religious heritage and ethnic characteristics of ancient civilizations, and creating a theme atmosphere of nature, life, and simplicity.

# Titanic Hotel & Resort Water Park

- ◆ Location: Egypt
- ◆ Area: 1,100sqm
- ◆ Completion time: 2019

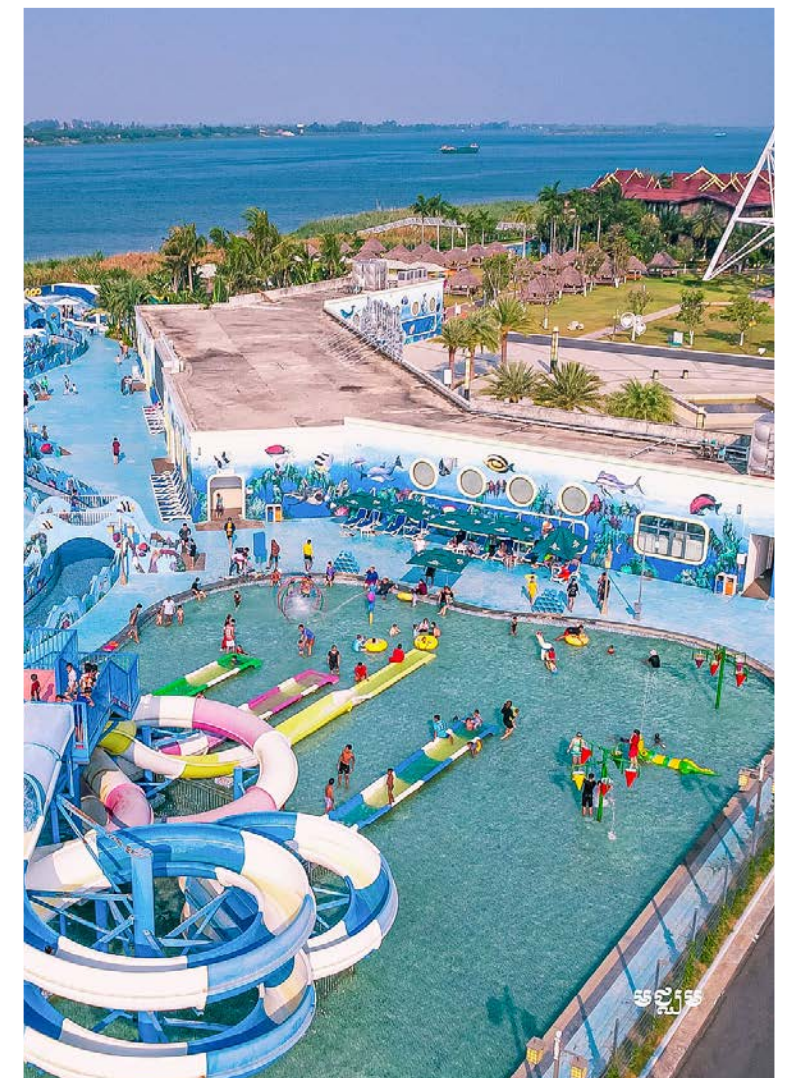

This project is located in Egypt, the hotel offers high quality services to meet the various needs of guests. The colorful series and pirate ship water park equipment from cowboy have novel designs and bright colors, which can create a warm vacation atmosphere for tourists.

# Prince Manor Water Park

- ◆ Location: Cambodia
- ◆ Area: 8,230sqm
- ◆ Completion time: 2019

Prince Manor Water Park located in Cambodia is a comprehensive water park and it contains many types of water park equipment that includes exciting items and leisure items. In addition, Cambodia is a southeast country in Asia and is near the sea, therefore, the local people would like to play in the water park, when the weather is hot.

# M'nar Hotel Water Park

- ◆ Location: Tangier, Morocco
- ◆ Area: 800sqm
- ◆ Completion time: 2019

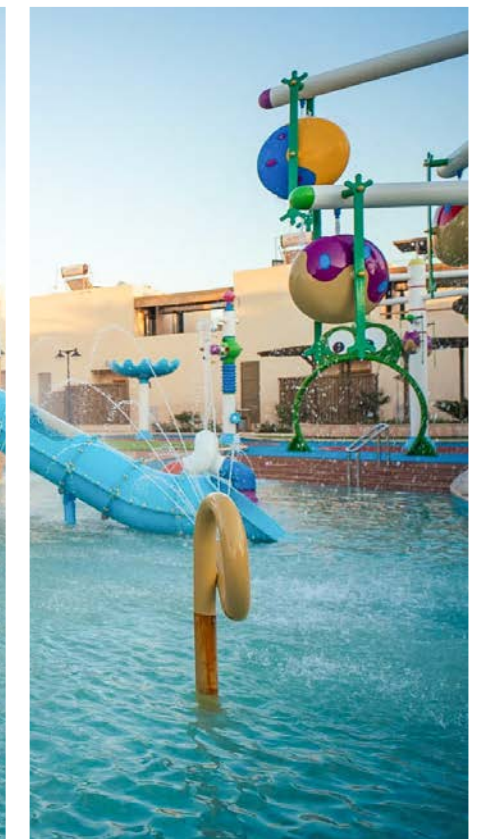

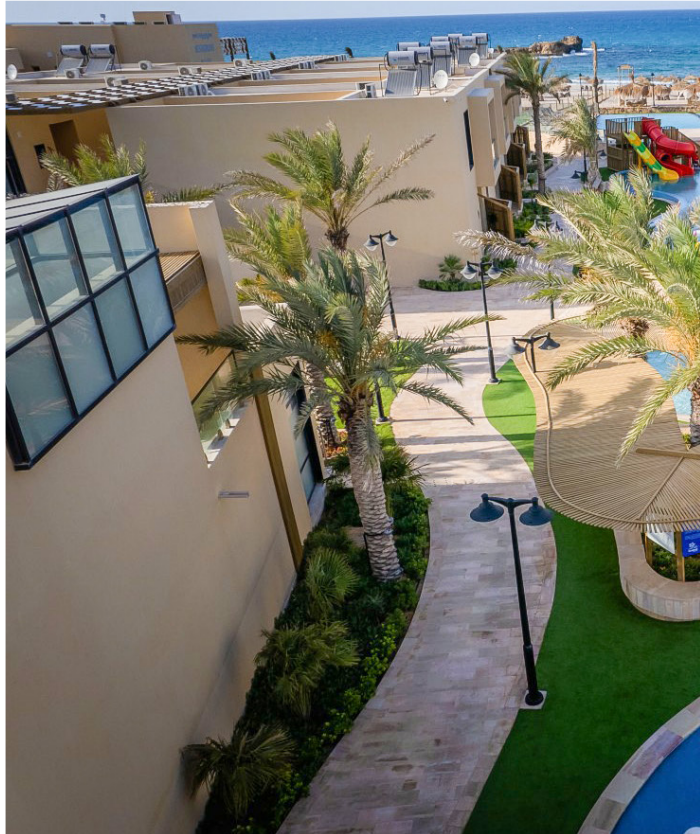

Mnar Hotel and Shepherd Boy collaborated to upgrade the water park project. The equipment provided by the shepherd boy includes a raft slide, a high-speed slide, a large horn slide, a soaring spiral slide, and a pirate boat water house. Shepherds provide one-stop services for the manufacturing, installation, and operation planning of these devices.

# Seapool Resort Water Park

- ◆ Location: Libya
- ◆ Area: 800sqm
- ◆ Completion time: 2020

The Seapool Resort Water Park is located in Libya, and is a supporting water park of the Seapool Resort. Cowboy Group is responsible for water park design, production, and installation. Help customers build a water park that never rusts.

# Aqua world Water Park

- ◆ Location: Budapest, Hungary
- ◆ Area: 1,000sqm
- ◆ Completion time: 2018

Budapest Aqua World Water Park is a star rated hotel with high-quality services and comprehensive facilities to meet the diverse needs of guests. The hotel has chosen a colorful series of products from Cowboy that never rust, have a novel design, and are simple and easy to install.

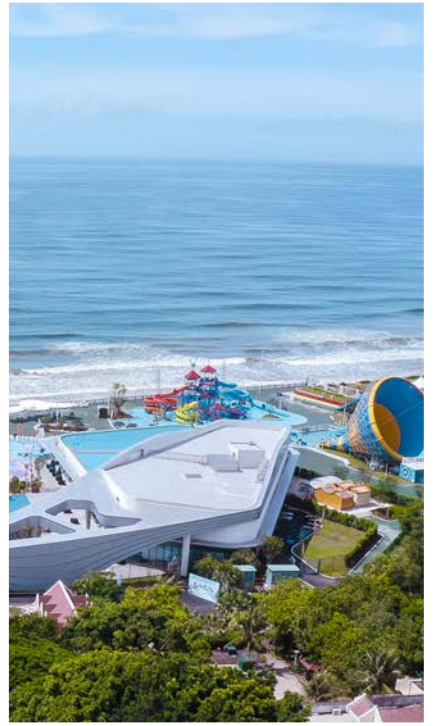

# ZhongHai Golden Coast Water Park

- ◆ Location: Guangdong, China
- ◆ Area: 40,000sqm
- ◆ Completion time: 2018

The project is a Golden Coast cultural and tourism town that integrates tourism and vacation, leisure and entertainment, health and wellness, and high-end living. It is a water park mainly focused on family and child entertainment. In the selection of the main color tone, we have incorporated the blue of the sea to create a modern seaside amusement park that blends with the sea. According to the needs of different ages, we have divided it into a children's play area and an adult play area. Let adults and children **find their own way of playing here and enjoy a wonderful vacation time.**

# Shuimu Carnival Ice and Snow Water World

- ◆ Location: Handan, Hubei
- ◆ Area: 64,800sqm
- ◆ Completion time: Under construction

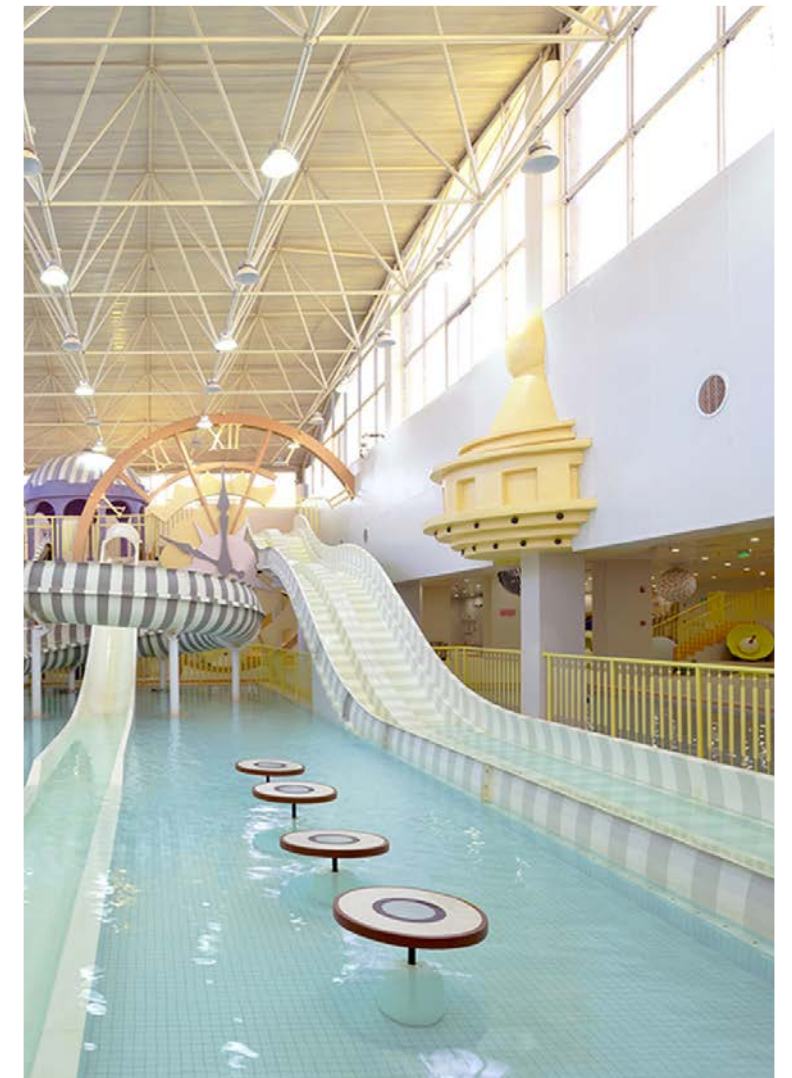

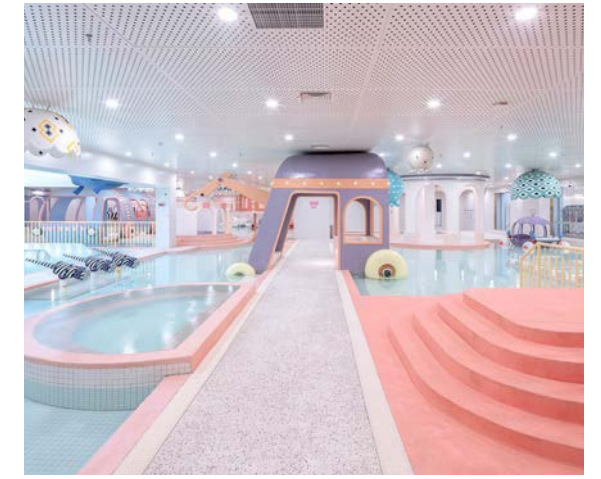

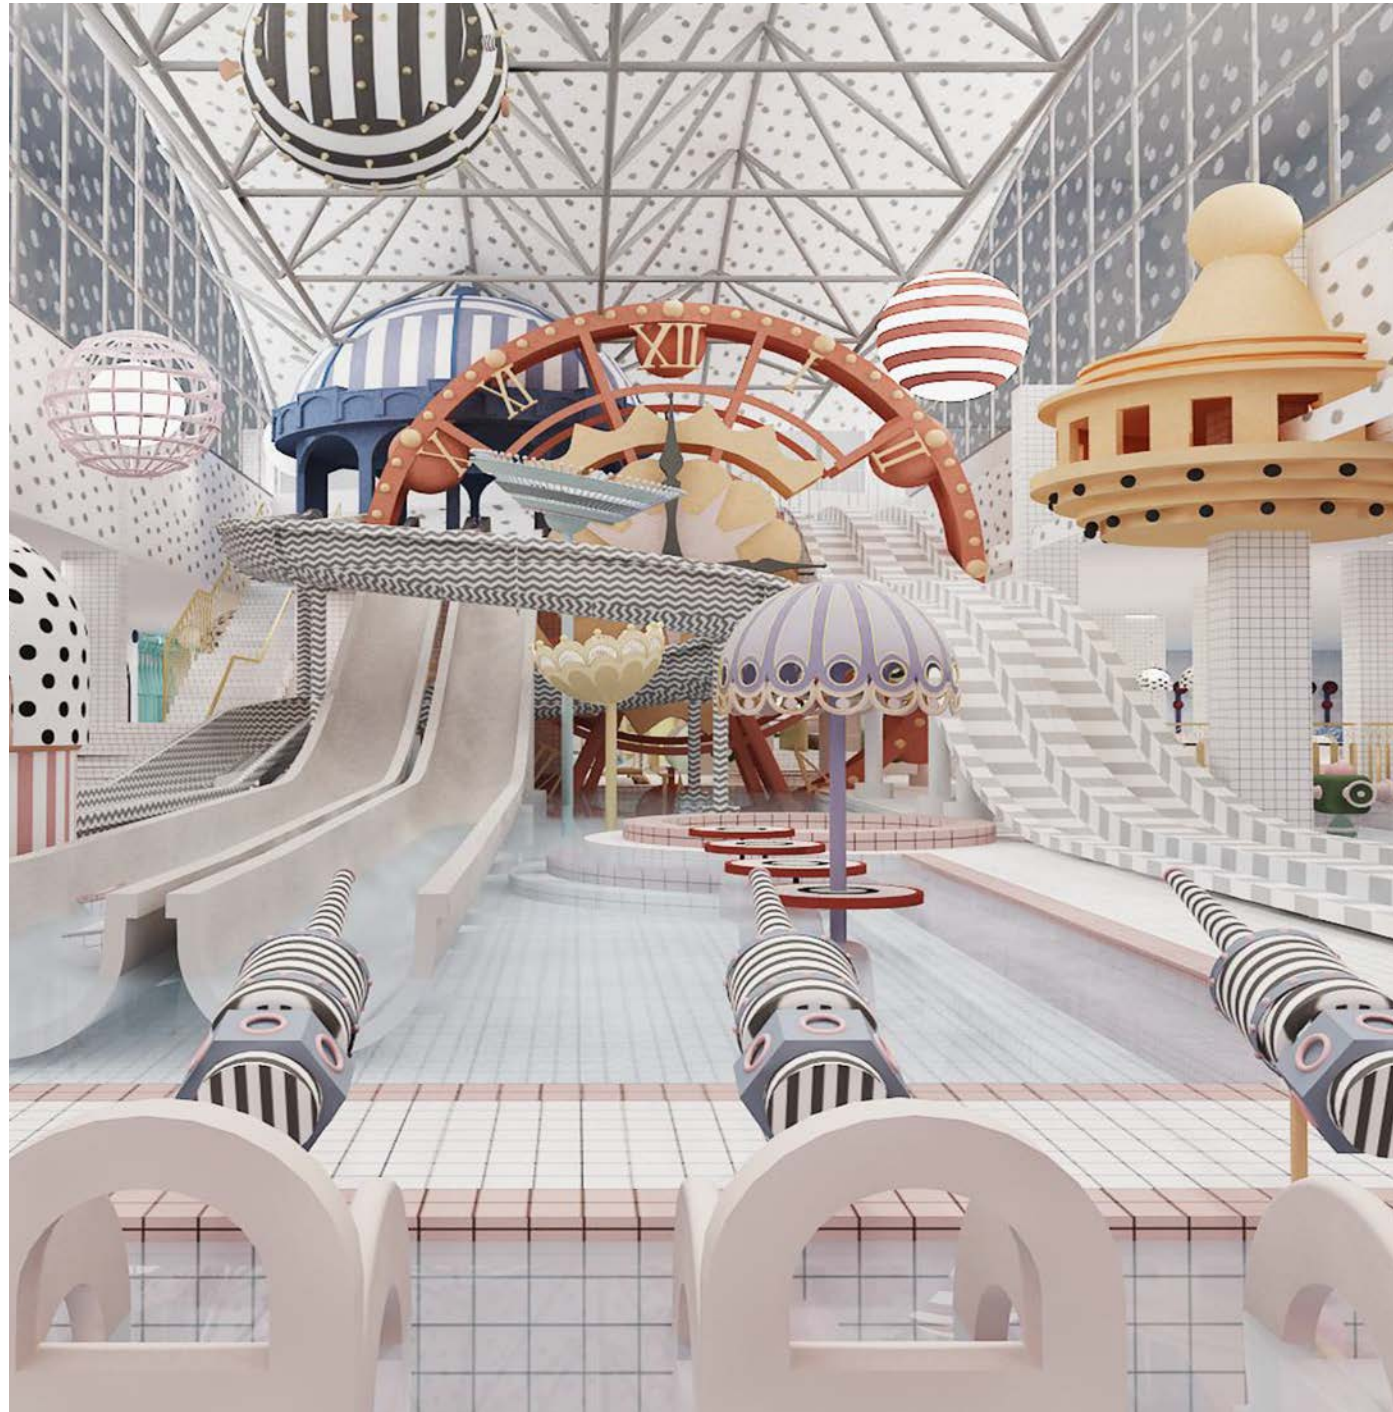

The Future City, Jade Pool Paradise, and Green Jungle, three themes jointly create **Handan's first super large indoor water park**, making each area a small world for people to explore.

# Beijing Baoyan Indoor Water Park

- ◆ Location: Fengtai, Beijing
- ◆ Area: 3,000sqm
- ◆ Completion time: 2018

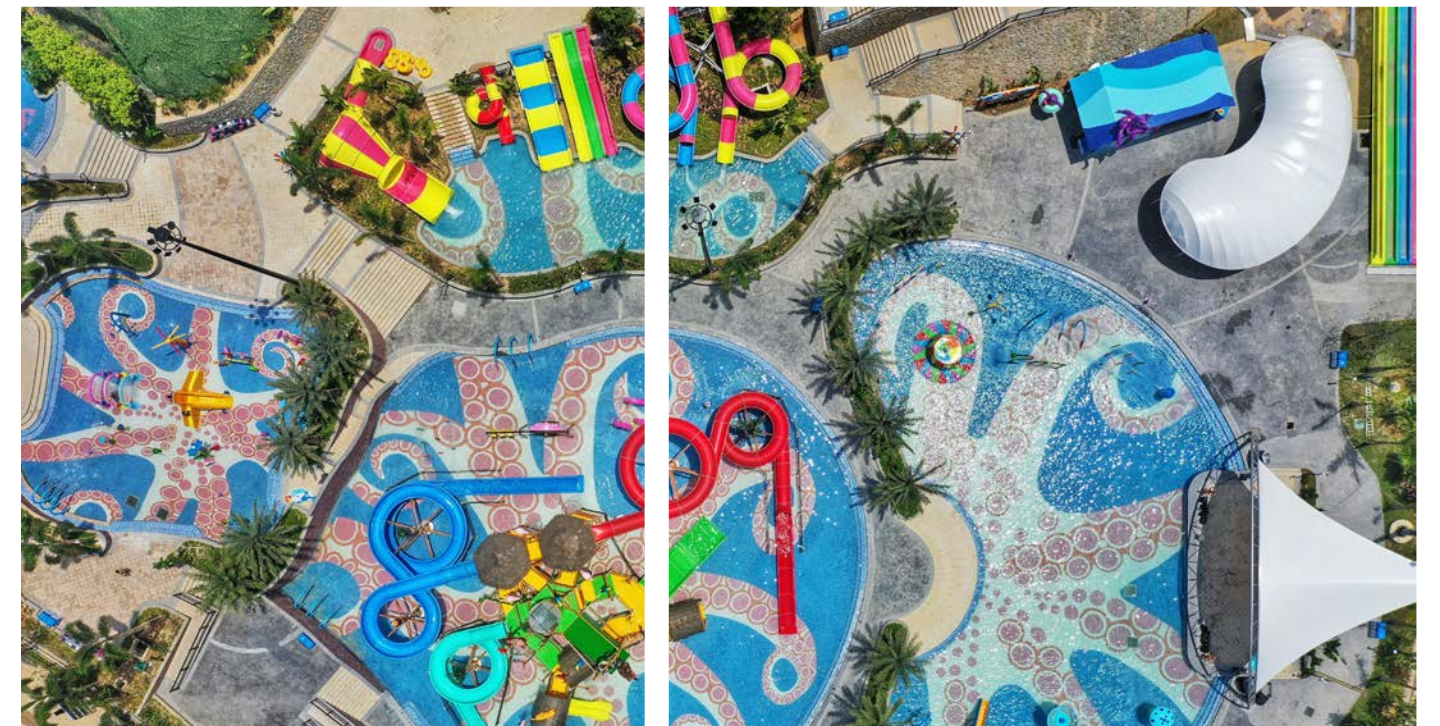

Beijing Baoyan Indoor Water Park is an indoor amusement park located in the Baoyan Shopping Mall. Internal attractions include indoor playground, Toy Factory, Cute Pet Park, 5D, 7D cinemas and so on. The water park we've constructed is also a key highlight of the entire amusement park.

# Shelari-gu Water Park

- ◆ Location: Qingyuan, Guangdong
- ◆ Area: 12,000sqm
- ◆ Completion time: 2019

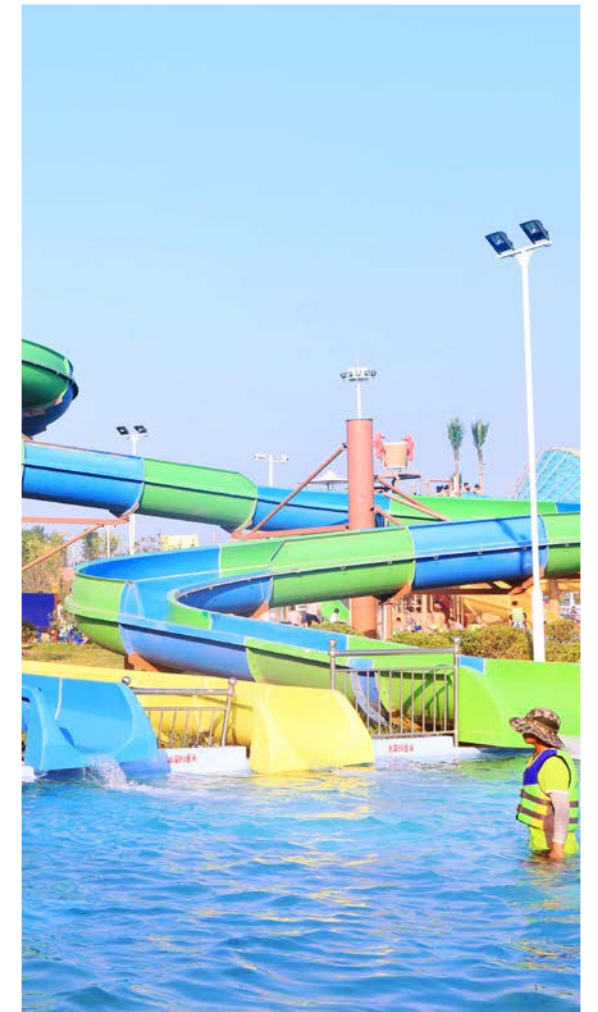

Inspired by nature and the concept of forests, Shelari-gu Water Park seeks to create a serene oasis blending mountain and water elements. To seamlessly integrate with the surrounding scenery, our design utilizes the site's natural elevation changes and multidimensional space. Highlights include a mesmerizing Van Gogh Starry Sky-themed **infinity pool**, a popular destination for social media enthusiasts, and expansive octopus-themed pavement. Rainbow slides and large water forts enhance the park's immersive three-dimensional gaming experience!

# Linquan Fengshen Magic Water World

- ◆ Location: AnHui, China
- ◆ Area: 100,000sqm
- ◆ Completion time: 2017

The "Fengshen Magical Water World" is an integral part of the development strategy of the Chinese capital of magic, the Anhui Linquan Fengshen Cultural International Resort. Covering an area of 10 hectare and with an investment of 400 million yuan, the water park features large-scale aquatic amusement facilities such as Tornado slide, Rainbow Combination Slide, and Spiral Slide and so on, allowing you to experience the magical thrill of water escapades. Additionally, there's a Lazy River for a comfortable and relaxing water experience. The children's area includes the Children's Joy Island, Children's Combination Slide, Children's Music Fountain Plaza, and the Big Water Fort. The Nezha Sea Area consists of the exhilarating Tidal Pool and the invigorating Wave Pool, offering ample enjoyment of summer water fun.

# Jintaifeng Colorful Water Park

- ◆ Location: Dongguan, Guangdong
- ◆ Area: 4,500sqm
- ◆ Completion time: 2016

The Jintaifeng Colorful Water Park in Qingxi Town, Dongguan has an operating area of about 30 acres. After renovation, the business projects will expand to a series of themes such as large interactive water house, spiral combination slides, **super surfing pools**, family combination slides, standard water pool and so on.

# Wipes Hotel Water Park

- ◆ Location: Sanya,Hainan
- ◆ Area: 2,000sqm
- ◆ Completion time: 2022

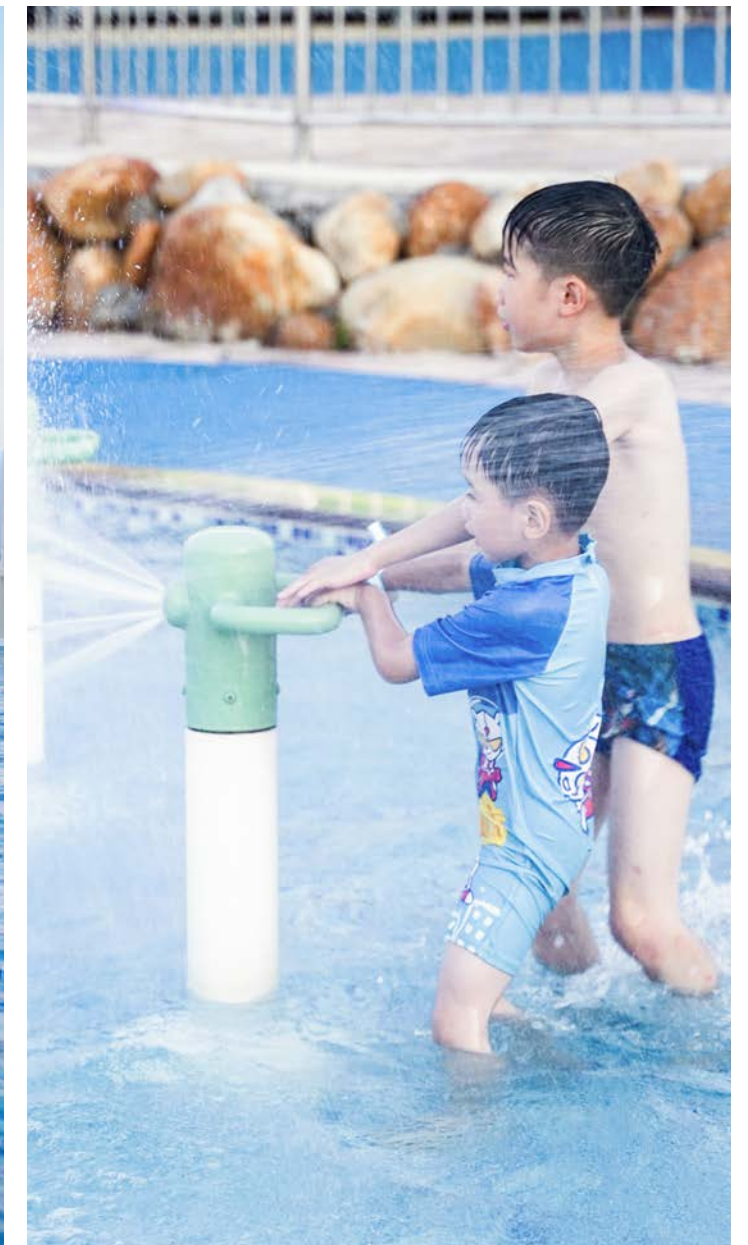

The project is located inside the Qingyuiwan Hotel in Sanya, and the water park created with colorful colors perfectly blends with the surrounding environment.

# Heatwave Bay Water Park

- ◆ Location: Zhuhai, Guangdong
- ◆ Area: 1,550sqm
- ◆ Completion time: 2023

TZhuhai Heatwave Bay Water Park design area: 1550 square meters, the equipment using mild and tension Morandi color system which is the novel structure and unique combination, so that the space becomes more advanced and elegant. Suitable for families to play together. The main equipment are whale water house, all kinds of fun water play: curtain water door, twist water play, funnel water play, pour buckets, water guns, all kinds of animal and plant modeling water play and so on. In the changing water spray shape, children can observe the characteristics of a variety of water jets, understand nature in play, and subtly improve children's creativity and imagination. Play and grow up healthy in a corrosion-free, safe water playground, which is what parents are looking for.
